

About Us

Here at JG Innovations Inc., we're real people with real solutions for your concealment needs. As a marketplace leader in the interior steel soffit products, we possess the expertise required to efficiently handle your unique piping and mechanical enclosure specifications. Beginning with free design aid and competitive budgetary quotes, JG Innovations delivers the commitment necessary to take your next project from conception to completion. Our clients can expect to receive the quality-fabricated and powder coated, interior soffit system required to get the job done right and on time.

Staffed with licensed, professional engineers and skilled tradesmen, JG Innovations is also a reliable partner you can trust for your speciality engineered fabrications. Provided with a copy of your shop drawings, we guarantee nothing less than precision craftsmanship in a timely manner. We are a detailed-oriented company equipped with the resources to handle even the most complex of architectural products. From column wrapping to escalator panels, JG Innovations' extensive experience with sheet metal and aluminum provides the solutions your job requires. Please contact our sales team toll-free at **1-888-933-2248** or email sales@JGIUS.com for further information.

Choose JG Innovations as the fabrication source for your next project. We go to work for you....

Illusions

Aesthetic Soffits

"Your Mechanicals Are Our Secret."

If you're going to make a first impression, is it a crime to make it a false impression? We're not suggesting you take this approach literally, but JG Innovations Inc. can be your accomplice in covering up those visually-distracting, mechanical systems. When you simply need a disguise, use our 'Illusions' Aesthetic Soffit line to shroud exposed mechanicals in secrecy.

The 'Illusions' line is an obscure way to keep any combination of exposed Fire Sprinkler, Plumbing and Hydronic Piping, HVAC or Electrical Systems under wraps. Specifically designed for aesthetic purposes alone, 'Illusions' Soffits supply streamlined camouflage in classic, clean profiles.

As building configurations do and will vary, we supply our metal interior soffit systems in multiple silhouettes to easily accommodate simplistic to complex layouts. Standard profile options commonly consist of:

- L-Shield
- Bow-Shield
- J-Shield
- Soft Edge-Shield
- U-Shield

....in addition to your custom requests!

Our 'Illusion' Aesthetic Soffits deliver the concealment system you need in a made-to-order fashion. Popular finish choices include paintgrip (unfinished Zinc-Galvanneal dipped steel), primed and several powder coated shades of white. Or alternatively provide us with your color samples for custom-matched shades.

The customization highlights don't stop with profile and finish options. JG Innovations understands that a cookie-cutter approach can leave your needs unmet. Concerned you have a seemingly odd size for the interior soffit system your facility requires? Our soffit systems are fabricated to the exact dimensional specifications requested. Custom enclosures have never been so convenient or economical! Simply supply the dimensions of the mechanical systems needing concealment, and your 'Illusions' Architectural Soffits will arrive within 2-3 weeks nationwide! Our 'Illusions' Soffits complete the impressive feat of hiding your mechanicals, leaving onlookers wondering, "What's your secret?"

Want to learn more about how you can become a master of 'Illusions'? Contact our sales team today at, **1-888-933-2248** or send your email to sales@JGIUS.com.
